EDUCATION

Vellore Institute of Technology, Bhopal

B.Tech in Computer Science and Engineering (AIML); CGPA: 8.32/10

Maharana Mewar Public School

PCM with Computer Science; Grade: 73.77%

Saint Joseph's Secondary School

Class X; Grade: 90.60%

Sep 2020 – Jul 2024

Bhopal, India

Apr 2018 – Mar 2020

Udaipur, India

Apr 2009 – Mar 2018

Mount Abu, India

SKILLS

Programming: Java, Python, SQL, JavaScript

Frontend: Angular, HTML, CSS

Backend: Spring Boot, REST APIs, Microservices Architecture

Tools & Technologies: Git, GitHub, Postman, JIRA, Maven

Databases: MySQL, PostgreSQL

Cloud & DevOps: AWS (EC2, S3, IAM, CloudWatch)

Testing: Unit Testing, Integration Testing, API Testing

Core Strengths: Data Structures, Problem Solving, System Understanding

EXPERIENCE

Tata Consultancy Services (TCS) – Client: GE Aerospace

Assistant System Engineer — Backend Developer

Bengaluru, India

June 2025 – Present

- Developed REST APIs with CRUD functionality to support application features.
- Designed and integrated database structures ensuring data consistency and reliability.
- Tested APIs using Postman and performed unit and integration testing.
- Collaborated with frontend teams for seamless API integration.
- Worked on upgrading application from older Angular version to latest along with Node.js upgrade.
- Resolved issues during development and ensured code quality through reviews and fixes.

NeuroNexus Innovations

Machine Learning Intern

Remote

July 2024 – March 2025

- Developed machine learning models for customer churn prediction and spam detection using Python and Scikit-learn.
- Performed data preprocessing, feature engineering, and exploratory data analysis on structured datasets.
- Improved model performance through hyperparameter tuning and validation techniques.

PROJECTS

Symphony – End-to-End ML Web Application | *Python, Flask, React, AWS, Docker*

- Built a full-stack ML web application for music recommendation using clustering and feature analysis.
- Performed EDA and K-Means clustering to generate intelligent playlist recommendations.
- Deployed backend APIs on AWS with Docker and implemented CI/CD pipeline for production rollout.

Scalable Java Application on AWS | *Java, AWS, Terraform, Jenkins, Ansible*

- Deployed a Spring Boot service on AWS using automated provisioning workflows.
- Configured CI/CD pipelines through Jenkins for build, test, and deployment automation.
- Improved infrastructure performance and reliability by **30%** using auto-scaling and monitoring.

Heart Disease Prediction using Deep Learning | *Python, TensorFlow, Keras*

- Built a deep learning model combining ECG, PCG, and vitals data to predict coronary artery disease.
- Performed preprocessing and feature scaling achieving 95% recall on test data.

CERTIFICATIONS

AWS Certified Cloud Practitioner – AWS (Jul 2023).

Google UX Designer Professional Certificate – Coursera.

HTML, CSS, and JavaScript for Web Developers – Coursera.
